

Invitation

10000 Edelweiss – Rotterdam Workshop – Transplantatie

PARTIZIPATIV – KOLLEKTIV – PRODUKTION

Be part of a collective art production organized by the Austrian artists collective alpine gothic in cooperation with Bildetage.

Take a simple birch twig and a knife and soon you will be able to cut the most beautiful flowers. The Edelweiss is the most precious and rare flower in the Alps. With your help we intend to produce 10000 of them to result in a huge collectively produced piece of art.

We provide everything for you to participate in the workshop and entertain you with stories and music related to the Edelweiss.

Our work 10000 Edelweiss investigates into the anachronistic myth around this Alpine flower. Questions on tourism, protection of nature and the value of art-production, as well as participation and Multiple Authorship are in the focus of our concept.

Post-production:

Your Edelweiss will be part of installations at De zwarte Ruyter in Rotterdam in May 2011 and later in summer 2011 at the Residenzgalerie in Salzburg, Austria.
